I would like to give great thanks to Mr Ben Lee, who is my T1, 13 lecturers. He is very experienced and professional and has gift of making subjects being understood much more easily in an interesting way. He helps me lay down my foundations in areas of accounting by his concise but shooting notes, past year exam question papers providing clear explanation. In addition, he is very patient to answer student’s questions. I would also like to take opportunity to thank Ms Mary Tan and Mr Nagge, because of your hard working, I can pass all the exams.

I must confess that I had doubts when I first saw Mr Andy Tan. How could SAA employ this young man who neither looks like nor behaves like conventional lecturer? But I was proven wrong as the classes went on. Andy has unconventional methods of teaching, which made understanding easy. His imaginative mnemonics made remembering key concepts a piece of cake. His notes were short and concise. Thank you, SAA, for opening up my mind. And thank you Andy!
